## Textbook of Integral Calculus and Elementary Differential Equation Quddus Khan

Rs. 795.00 | ISBN - 978-93-89055-09-2

Textbook of Integral Calculus and Elementary Differential Equations This book, 'Textbook of Integral Calculus and Elementary Differential Equations' is intended to serve as a textbook for undergraduate and honours students. It will be useful to the engineering and management students, and other applied areas. It will also be helpful in preparing for the competitive examinations like IAS, IES, NET, PCS and other higher education exams.

The text starts with a chapter on preliminaries discussing the basic concepts and the results thereof that will be referred throughout the book. This is followed by an in depth study of beta and gamma functions, reduction formulas, areas of curves (Quadrature), lengths of curves (Rectification), multiple integrals, volumes and surfaces of revolution, and elementary differential equations.

## Textbook of DIFFERENTIAL CALCULUS

Quddus Khan

Rs. 795.00 | ISBN - 978-93-89055-08-5

This book, 'Textbook of Differential Calculus' is intended to serve as a textbook for undergraduate and honours' students. It will be useful to the engineering and management students and other applied areas. It will also be helpful in preparing for the competitive examinations like IAS, IES, NET, PCS, and other higher education Exams.

The text starts with a chapter on preliminaries discussing the basic concepts and the results thereof that will be referred throughout the book. This is followed by an in depth study of limits, continuity and differentiability, successive differentiation, expansion of functions, tangents and normals, indeterminate, partial differentiation and jacobians, maxima and minima, curvature envelopes and evolutes, asymptotes, and tracing of the curves.

### The Author

Quddus Khan, Ph.D., is an associate professor in the Department of Applied Science and Humanities, Faculty of Engineering and Technology, Jamia Millia Islamia, new delhi. He has been teaching UG and PG classes for the last twenty years. He had also taught in Shibli National P.G. College, Azamgarh (U.P.). He had also worked as young scientist (PDF) in the Department of Mathematics, Faculty of Natural Science, Jamia Millia Islamia, New Delhi.

Dr. Khan has to his credit have 20 research papers on differentiable manifold published in various national and international journals, six books on D.G. of manifold, D.G. and its application, tensor analysis and its application, Mathematics for Chemistry, Fundamental concept of recurrent manifold and Sasakian manifold, and Fundamental concept symmetric manifold and Sasakian manifold and has also supervised two Ph D's.

### Goal and Fuzzy Programming Aspects

Rana, M. K.

9789382110231 / Rs. 595.00

### Coding Theory

Rana, M. K.

9789382110224 / Rs. 595.00

### An Introduction to Mathematical Analysis

Griffin, F. L.

9789385958090 / Rs. 1495.00
